

Průběh obhajoby diplomové práce:

The thesis defence started by the review of the thesis supervisor Michail Kotsyfabis who highlighted the student's achievements in the laboratory work during his thesis project. Next, the candidate presented the results of his scientific work included in the thesis. The committee appreciated the presentation in concise English with great clarity. Following the presentation, the reviews of two reviewers were presented. Both recommended the thesis as qualified for obtaining the title of BSc. The candidate responded to all questions raised by the reviewers.
