

Průběh obhajoby diplomové práce:

Head of the commission Willem Helena Mendelová, members of commission and the auditor Doc. Šimůň was present. Helena introduced the topics of the thesis, the studied organism *Xodes ricinus* and the FREP protein. She explained the used methods, experiments, results and presented the results on the function of the three *Xodes* in ticks. Supervisor of the thesis described her work in the laboratory and the results.

Next the reviews were read. The reader answered all the questions and comments. Answers to Doc. Šimůň's questions were satisfactory to the committee.

Helena answered questions from the commission and questions from the auditor (qPCR related). Again, the answers were satisfactory.
