

**Průběh obhajoby bakalářské práce:**

Prof. L. Brubaker welcome the student, commission, and audience. The Supervisor (A. Cabezas-Cruz), opponent (L. Marcos-Hernandez), and member of commission (T. Fossil) were not present. Supervisor and opponent sent their reviews in advance.

The student present her thesis - theoretical introduction, experimental methods, followed by results, summary, and conclusion. Postdoc from the co-supervisor's laboratory presented the review by A. Cabezas-Cruz. Opponent's review was read by J. Stehrle, the student answered the questions. Commission's questions on infection, feeding, sequences, inhibitor stability were answered well.

Body: 110  
 Klasifikace: excellent  
 Celková klasifikace: A. G. 2018
