

Průběh obhajoby bakalářské práce:

Head of the commission, Prof. L. Grubisfer, welcomed the student and members of the commission together with guests. The opponent, Dr. Teřková, was not present.

The student introduced the studied topic of embryo development and the known factors which regulate it. Then he explained the methods used, the results and discussed them. Doc. Bruce presented his review and Dr. Teřková's review was read. The student answered all the questions of the opponent and to the commission's satisfaction.

The student answered also questions from the commission on the selection of inhibitor concentrations, inhibitor degradation, manipulation of embryos etc. to the commission's satisfaction.
