

Assessment proposed by the supervisor of Bachelor's thesis: *recommened*
 Assessment proposed by the reviewer of Bachelor's thesis: *very good / good*

Course of the defence:

Prof. Grubhofer welcome the student, commission, and guests.
 Ms. Gemeinhardt presented information in the studied plants and
 also on microsatellites and their applications. Then the student
 presented the results and discussed them.

The supervisor presented his review, followed by the opponent.
 The student answered the questions. Then, the student answered questions
 from the commission on Sager sequencing and using the microsatellites
 its members.

Assessment: *very good*
 Defence date: *18.9.2005*
