

Assessment proposed by the supervisor of Bachelor's thesis: *recommen*

Assessment proposed by the reviewer of Bachelor's thesis: *recommen*

Course of the defence:

Prof. Bombhoffer welcome the student, commission, and guests. He then presented information on antimicrobials from bacterial strains and the *Kutzenia* spp. experimental setup and results of the thesis. The supervisor presented her review. The opponent, Dr. Petráček, was not present, his review was read by the commission. The student then answered to the questions of the opponent and also to questions from the commission on other *Kutzenia* spp. WGS sequencing (read length etc.)

Assessment: *excellent*

Defence date: *18.9.2019*
