Questions and comments

Critical comments and overall contributions, total value of the thesis

The submitted work is extensive and meets all the requirements for a diploma thesis and I recommend that it be awarded the grade of excellent during the challenge process. The topic chosen for this diploma thesis (Financing of Brownfields in Selected Countries) is at the forefront of interest at this time and essential for future resolution of the issue of regeneration of brownfields within the terms of the European Union. I rate the author's approach and his resolution of all problems, problems that he encountered when writing this diploma thesis, very highly. The author is very familiar with the issue being discussed, which is also evidenced by his extensive literary knowledge and the methods he uses.

Questions and topics for discussion before the commission

In your opinion, what is most important when making decisions about regeneration of brownfields (Germany, Czech republic, France)?
