

Assessment proposed by the supervisor of Bachelor's thesis: *Recommended*  
 Assessment proposed by the reviewer of Bachelor's thesis: *Recommended, excellent*

**Course of the defence:**

The head of the commission welcomed the student, commission, and the audience. Mr. Mayrhofer presented basic info on circadian clock in insects and the known proteins. Next, he presented the aims and methodology. Then the results were shown and discussed. The supervisor and opponent read their reviews and the student answered the questions. Then Mr. Mayrhofer answered also the questions from the commission. Questions on timing of the injection, effect of knockdown and the effects on FRR were answered.

Assessment: *excellent*  
 Defence date: *28.1.2020*
