

Assessment proposed by the supervisor:

recommended

Assessment proposed by the reviewer:

good, recommended

Course of the defence:

Prof. Grubhofer welcome the student, supervisor and members of the committee. All the members were present.

The student presented the theoretical background, questions asked in the thesis, methods used. The results and their discussion followed. The supervisor and the opponent presented their reviews. The student was hardly able to answer the opponent's questions. Questions from the audience on the various methods, results, presenting the results and combining the results and drawing the conclusions followed. The student was able to satisfactorily answer only some of the questions.

Score: .....

good (4x3, 1x5)
