

Course of the defence: Prof. Václavík welcome Mr. Halas and the members of the commission. Dr. Červenáková was not present. Mr. Halas presented information on the studied microorganism *M. tuberculosis* and *M. smegmatis* and the studied protein. Results and conclusions were presented. Discussion of the results was missing, it is missing also from the thesis itself. Supervisor and opponent presented their reviews. Student answered the questions of the opponent and commission members.

Score: 10Assessment: very goodDate of defence: 11. 9. 2021.....
