

Assessment proposed by the supervisor: *recommend*Assessment proposed by the reviewer: *excellent*

Course of the defence:

Head of the commission welcome the student and all members of the commission, everybody was present in person.

The student described the light scattering complex and the studied protein. Aims of the thesis were presented as well as the methods. Then the results were presented, followed by discussion of the results. Highly positive review of the supervisor was followed by the review of the opponent, also highly positive. The student answered all the questions satisfactorily. Then questions from the commission on graphs and solving the structure of the studied protein were answered.

The commission suggests this thesis for an award for extraordinary theses.
