

Assessment proposed by the supervisor: *Recommend*
Assessment proposed by the reviewer: *Recommend*

Course of the defence:

The head of the commission welcomed the student, members of the Commission, and guests. The student presented the topics of atherosclerosis related to SARS-CoV-2 infection. Then the pathways of CoV-2 infection of the CVS were described. Further, the possible causes of atherosclerosis were presented. Supervisor Dr. Lopata's was not present and his statement was read by Dr. Stürbe. Then, the opponent presented her review. The answers were not precise and correct. Questions from the commission followed, an indirect way of infection of CVS and getting the virus to CVS; how were the literature sources chosen.
