

Průběh obhajoby diplomové práce:

The student has presented an interesting topic. The commission missed a better explanation of the sampling, especially the reason for choosing the Czech Republic and Portugal. The data analysis would have been worth of a bigger effort. The conclusions and contributions of the presented thesis are rather weak. The student did not present her reaction to a part of the evaluation.

Body:

Klasifikace: good

Datum obhajoby: 27. 9. 2022

D. Felsa
předseda zkušební komise
