Comments of the supervisor on the student and the thesis:

Edrin was in a difficult situation during his bachelor project work. He started in our lab not long before the first COVID-19 lockdowns. This was probably behind a year-long gap in his work. During that time, Edrin's laptop crashed and he lost all the scripts for data processing and some of the experimental data. When Edrin got back to us to finish the thesis, his original supervisor, Dr. Joel Crossley had already finished his postdoctoral stay with the JU and moved abroad.

The above-mentioned difficulties Edrin experienced during his work here make it hard to judge his potential as a future researcher. Therefore my only recommendation for Edrin is to try to become more focused on understanding the bigger picture and develop more stamina and consistency in his future research.

Conclusion:

In conclusion, I
r e c o m m e n d
the thesis for the defense.
