## STATEMENT OF THE BACHELOR/DIPLOMA\* THESIS SUPERVISOR

Name of the student: Edita Alivuk

Study program: Biological Chemistry

Department/Institute: Faculty of Fisheries and Protection of Waters, Laboratory of Nutrition,  
České Budějovice, Czech Republic

Thesis title: OXIDATION DURING NORMAL AND VACUUM PACKED STORAGE OF  
SMOKED CARP

Supervisor: Nima Hematyar

Supervisor's affiliation: Institute of Aquaculture and Protection of Waters, Husova tř. 458/102, 370  
05 České Budějovice, Czech Republic

|                                                                                                                                                | Point scale <sup>1</sup> | Points |
|------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------|--------|
| <b>(1) FORMAL REQUIREMENTS</b>                                                                                                                 |                          |        |
| Formal and graphical quality of the thesis                                                                                                     | 0-3                      | 2      |
| Ability to work with literature                                                                                                                | 0-3                      | 2      |
| Language and stylistics                                                                                                                        | 0-3                      | 3      |
| Formal requirements - points in total                                                                                                          |                          | 7      |
| <b>(2) PRACTICAL REQUIREMENTS</b>                                                                                                              |                          |        |
| Fulfillment of the aims                                                                                                                        | 0-3                      | 3      |
| Ability to understand the results, their interpretation, and clarity of the results, discussion, and conclusions                               | 0-3                      | 2      |
| Discussion quality - interpretation of results and their discussion with the literature                                                        | 0-3                      | 2      |
| Experimental difficulty of the thesis, independence in experimental work                                                                       | 0-3                      | 3      |
| Contribution of the thesis to the knowledge in the field and the possibility to publish the results (after eventual supplementary experiments) | 0-3                      | 2      |
| Practical requirements - points in total                                                                                                       |                          | 12     |

\* Choose one

<sup>1</sup> Mark as: 0-unsatisfactory, 1-satisfactory, 2-average, 3-excellent.

Comments of the supervisor on the student and the thesis:

Alivuk Edita worked in the laboratory of Nutrition on her thesis. During her work she could learn the methods soon and performed them on her samples. She obtained some interesting results which are linked to the quality of smoked carp fillet in the normal and vacuumed pack systems and I would like to inform you that she is ready for the defense.

Conclusion:

In conclusion, I would recommend Alivuk Edita to defense her bachelor thesis.
