Comments of the supervisor on the student and the thesis:

Writing good and creative review is very difficult. Isabel has done the job very well. She collected and evaluated a large volume of literary sources and was able to propose possible directions for further development as well as specific experimental arrangements. She worked independently and creatively. Her work is valuable to us because we have not yet covered this area. We will implement the proposed procedure in the short term.

Conclusion:

**In conclusion, I r e c o m m e n d
the thesis for the defense.**
