Comments of the supervisor on the student and the thesis:

Amelie Klein was a very diligent student. She followed my advice carefully, discussed gently her ideas, and was eventually able to independently work in the laboratory during the experiments, performing the data analysis, and writing and discussing her results autonomously. I am happy with the outcome of her work, in the form of her bachelor's thesis, and foresee a future publication in an impacted scientific journal including her results.

Conclusion:
